DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 406 and 408. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 503 and 505, on page 7 line 16. The usage of "502-506" is confusing, even though only even numbers have been used in the drawings. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled

"Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Tezuka et al., US Patent number 5,764,911.

With regard to claims 1, 11, and 21, Tezuka discloses a method for administration of security policies in a computer system (column 1 lines 11-15, column 8 lines 64-67) including displaying a subject (column 10 lines 41-43), an object (column 10 lines 44-45), and a security policy (column 12 lines 22-29), and dragging and object (column 10 lines 62-62) and the subject (column 10 lines 64-67) into the security policy, thus granting the subject access to the object under the security policy (column 12 lines 38-41).

With regard to claims 2, 12, and 22, Tezuka discloses the subject is a user (column 10 lines 41-43).

With regard to claims 3, 13, and 23, Tezuka discloses the object includes data (data on a computer, column 10 lines 44-45).

With regard to claims 4, 14, and 24, Tezuka discloses editing the security policies changes right relations and access authorization (column 10 lines 18-28).

With regard to claims 5, 15, and 25, Tezuka discloses the dragging and dropping assigns security levels (column 12 lines 25-28).

With regard to claims 6, 16, and 26, Tezuka discloses the object and image are represented by icons (column 10 line 65, Figure 20).

With regard to claims 7, 8, 17, 18, 27, and 28, Tezuka discloses the security policy comprises a window with a label (Figure 20).

With regard to claims 9, 10, 19, 20, 29, and 30, Tezuka discloses a tool for viewing attributes of a subject or object or creating one (column 11 lines 7-13).
